

Apogee™ INDUCTION COOKTOPS

INTRODUCING Apogee™

Unprecedented performance through a new, streamlined design. Optimum control, usability, and power.

INTRODUCING OUR FLAGSHIP LINE OF INDUCTION COOKTOPS.

The Apogee line has been developed with the latest in enhanced communication in mind. An LCD display provides all the specific information and data you need, every step of the way. Whether it's power control or temperature, 100 precise settings are available, made possible through our capacitive touch panel. With just the slide of a finger, your specifications become customized, right down to the built-in cooking timer.

Control, design, speed, precision, Apogee has it all, in clear, easy to understand communication. From its cutting-edge technologies to its new, streamlined design, Apogee brings benefits your kitchen has always dreamed of.

PRECISE

Easy-to-read LCD display provides all the specific information you need. Capacitive touch feature allows power and temperature control right at your fingertips.

BUILT-IN SELF DIAGNOSTICS

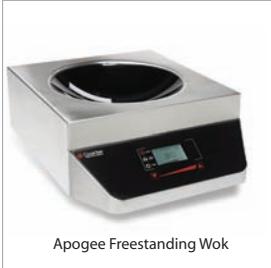

Built-in microprocessor performs self-diagnostics 120 times per second to check for overheating, power supply problems, blocked airflow and more. If a problem is detected, the cooktop shuts itself off before any damage can occur.

SMARTEMP™ TEMPERATURE CONTROL

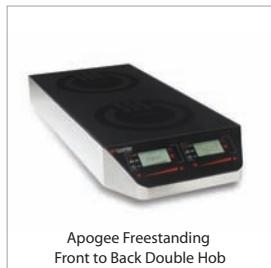

The Apogee line features CookTek's SmartTemp™ temperature control that allows for 100 power cook and temperature settings for precise temperature control, along with a built in cooking timer
