ITEM #:

Standard Features:

- Portable tabletop design with stainless steel housing, heavy duty electronic components, and high impact, thick, ceramic-glass top engineered for use in commercial kitchens
- Available in front-to-back or side-by-side models
- Each induction hob has its own separate controls for independent operation and functionality
- Pan Maximizer feature achieves maximum heating of any induction compatible pan
- Microprocessor monitors vital components 120 times per second to check for overheating, power supply problems, and more. Cooktop shuts off and displays error codes enabling user to diagnose and fix minor problems
- LCD display panel with capacitive touch for precise user feedback and operation
- Built in cooking timer
- SmarTemp™ temperature control allows for 100 power cook and temperature settings
- Automatic pan detection allows for instant energy transmission to pan, and no energy use when pan is not present
- Automatic shut-off feature prohibits overheating
- Sloped front panel allows for easy viewing and operation
- Easy-to-clean glass top and front surface
- Integral cooling fan keeps internal electronics cool
- Available in 5000 Watts total (200-240V)–2500 Watts per hob
- One year limited warranty
- Made-in-the-USA

Specifications:

Shall be a CookTek free-standing double hob cooktop, Model _____ with a total kW rating of _____. Unit shall be manufactured in the United States and constructed of a stainless steel housing and a high impact, thick, ceramic-glass top. Unit shall be equipped with built in SmarTemp™ temperature control with 100 precise power and temperature settings, auto shut off to prevent over-heating, self diagnostics, and a pan maximizer feature that ensures maximum heating of any induction compatible pan. Unit shall have LCD display panel with capacitive touch for precise user feedback. Unit shall operate on _____ power with integral cord and plug supplied.
