Design diversity for the buffet

In the buffet collection, *Function* is the name of the program. The many designs and sizes are not only practical for the fact that they can be individually used according to menu and occasion – they can also be used to create completely new buffet presentations. These give the gastronomes the chance to put together their own menus according to whim. Design: Prof. Günter Horntrich, 1999

THE PORCELAIN OF TOMORROW – SINCE 1881

Porcelain, metal, and glass – *Function* features different materials to provide the perfect platform for presenting cold and warm foods at any time of the day. Glass and porcelain bowls, paired with fitting presentation elements, plus curving platters that appear to reach

out to the guest, offering delicacies on all levels. With imagination and a pleasure for serving, the individual items can be arranged in new and different ways time and time again. The charming jam jars can, for example, be turned into stylish lanterns in the evening.

Being functional can be so beautiful

Space-saving, stackable platters may equally be used to serve food, to present dishes or as trays for dip bowls. Dressing jars with closeable lids provide hygienic, practical containers for sauces and other foods. Because the *Function* buffet collection is so very versatile, it is open to any of the chef de cuisine's ideas.

Décor Service

Porcelain shows its colors

Bauscher has always stood for design that sets standards in professional porcelain, not only in the shaping of any given article but also in its extraordinary colors. We take great pride in our Atelier. Day in and day out, the designers at our in-house studio create new, unmistakable décors in close coordination with our customers. Whether elegant colors, fine vignettes or vivid patterns – a décor is an important message in gastronomy that sets an establishment apart and underscores its personality.

Our special forte: custom-made designs

Our studio's portfolio encompasses a collection of more than 25,000 décors. Anyone who cannot decide from such a huge choice can simply have their own individual décor created. Our décor studio provides tailored solutions for every wish - classic logos or word marks as well as elaborate patterns and decorations on rims and mirrors. We remain at the customer's side throughout the production process, sharing our experience and creativity from the first draft to final delivery.

Accentuating with colors

The Bauscher décor studio offers the most diverse color and font options to customers seeking a tailored look. Countless brilliant colors and typefaces await – inspired design ideas are all it takes to bring them to life. Of course, we are also happy to use our customers' proprietary typefaces and color definitions. Our Atelier can accommodate almost every wish. Working with state-of-the-art technology, we apply all our skills and enthusiasm to create décors that inspire our customers and their guests.

Personality begins where comparison ends

With high-quality porcelain an establishment presents not only the kitchen's finesse to the guest, but also an important part of its personality. The significance of an individual décor is impossible to overestimate. It raises recognition value in the competitive hotel and gastronomy industries. It treats the guest to a coherent overall impression and demonstrates that quality is a top priority for the host. In times when guests can choose from the diverse gourmet offerings from all over the world, custom décor is decisive in making a good and lasting impression.
