(qty/ctn12): L300mm | S95mm | D315mm | H26mm

*AK6130115 - Round Saucer is compatible
with the following items:

- AK6130024 - Coffee Cup (Zen)
- CW1407124 - Tea Cup (Eco)
- CW2002029 - Cone Mug (Eco)
- CW1406020 - Coffee Cup (Oriental)
- LN3505027 - Tea Cup (Manhattan)

The Luzerne Process

The making of a Luzerne plate is a carefully fine tuned process honed from the company's unwavering focus on quality and craftsmanship. The journey to create the finest begins with the right mix of raw materials; grinded, sieved, demagnetised and filtered to our exacting standards before they are transformed into works of art. The resulting clay base is then shaped in 3D plaster moulds, each painstakingly designed by our craftsmen, before going into an automated kiln for the initial biscuit firing process at a temperature of 800 degrees Celsius.

The pieces are next painted by hand to our customers' design requirements and glazed to achieve a variety of aesthetic effects, be it transparent, opaque or semi-matte. The glazed wares are then fired for a second time in the kiln at a temperature of 1250 degrees Celsius for 15 to 30 hours to produce that perfectly shimmery finish. If decal decorations are required, the pieces are fired for a third time and inspected thoroughly for quality assurance before they are delivered to our customers.

The Preferred Choice

Luzerne New Bone has grown to become the preferred choice of many. When you buy a Luzerne New Bone, you can be sure you're getting a product that has been made with quality materials by expert craftsmen.

Committed to long lasting quality and reliability, we make every Luzerne New Bone product to the highest standards. Since 2004, our company has adopted the national standard of Criteria for Performance Excellence (GB/T19580-2004).

At Luzerne New Bone, we are proud to be certified and / or approved by:

- ISO 9001
- ISO 14001

Luzerne New Bone, The Original Perfected

In 1995, while experimenting with a variety of clay for new formulation, our artisans discovered the fine, silky clay of Dehua, China, which produced a clear and translucent texture with soft ivory colour after high temperature firing in the kiln. Since then, our artisans have gone beyond the basic knowledge of ceramics manufacturing to create Luzerne New Bone, a way of perfecting traditional bone china without the use of bone ash.

Luzerne New Bone is the work of craftsmen, designers and artists whose extraordinary artistic skills and vision keep the Luzerne New Bone aesthetics ever evolving.

Today, Luzerne New Bone is produced in Dehua, one of the world's finest ceramic capitals.

Renowned worldwide for its smooth, flawless glaze and refined translucency, Luzerne New Bone is the preferred choice for the world's finest hotels and restaurants.

Regulatory Boards

- Californian Proposition 65
 - European REACH (Registration, Evaluation, Authorization and Restriction of Chemical)
 - Regulation Japan Food Sanitation Law (Law No. 233)
 - Singapore Agri-Food & Veterinary Authority
 - US Food & Drug Administration
- We also test our products to ensure safer, regulatory-compliant and better made ceramics.

Test Centres we use include:

- CERAM Test Centre, United Kingdom
- CERAM Approved Laboratory, Hong Kong and China
- PSB Corporation, Singapore
- SGS Test Centres, Japan and China

Our Signature Quality

Stronger than Bone China

- Excellent resistance to extreme temperatures. Luzerne New Bone will not crack even when removed from the oven (180°C) and placed under running water (20°C).
- Safe for use in commercial dishwashers, freezers, ovens and microwave ovens.

Scratch and Chip Resistant

- More durable than bone china.
- Its glaze is fired under the same high heat as its body (1300°C), making it homogeneous, scratch and chip resistant.
- Able to withstand the daily rigours of heavy-duty commercial use.
- Its refined, translucent quality resembles bone china.
- Its elegant, ivory hue enhances food presentation especially under restaurant lighting.

Health Standards

- Luzerne New Bone is 100% lead and cadmium-free. Dual firing at high temperatures (between 900°C to 1300°C) eliminates traces of lead and cadmium.
- Approved by the strictest US Food & Drug Administration and California Prop 65 health standards.
- Clay used is derived from natural sources, and does not contain animal bone ash.
- Is suitable for people with religious and animal welfare concerns.

Guarantee

- Every Luzerne in-glaze and under-glaze product comes with an exclusive guarantee* of being chip resistant**, dishwasher, freezer and microwave safe, oven-proof and shine resilient for 5 years or 5,000 washes from the date of manufacture (whichever is earlier), with proper care and handling.

Affordable

- Better value than bone china.
- The smart choice for hotels, restaurants and homes.

Terms and Conditions Applicable to Guarantee.

*The guarantee extends only to replacement of damaged products due to manufacturing defects and not caused by misuse, abuse or mishandling of the products. Other than such replacement, Luzerne shall not be liable for any claim arising out of or in connection with the purchase and / or use of the products by any party.

**Guarantee for chip resistance applies only to rolled edge tableware and not to any other product.

Going Green

Going Green for the environment is an idea that is here to stay. At Luzerne New Bone, Going Green simply means using smarter manufacturing methods and more energy efficient materials to reduce our impact on the environment.

At our plant, we have developed innovative ways to reduce waste and use less energy to make top quality products. We use LPG/LNG, an environmentally friendly fuel that improves air quality by reducing global warming and pollution.

Our recycling efforts involve processing used materials into new products to prevent waste, reduce energy usage and reduce air and water pollution.

Care & Handling

Luzerne New Bone is designed to withstand daily, heavy usage typical of the busiest hotels and restaurants.

However, proper and consistent maintenance is essential to prolong its durability, lustre, elegance and maximise the returns on your dinnerware investment.

Here is a simple but important reference and solutions guide to common problems faced:

To Prevent Breakage & Chipping, Avoid:

- Using metal trays, metal bus boxes or unsuitable racks.
- Overloading bus boxes & dish racks.
- Improper loading in dish racks.
- Piling heavy items on lighter items.
- Stacking chinaware too high.
- Nesting cups.
- Dropping chinaware into self-levelling dispensers.
- Mixing sizes in self-levelling dispensers.
- Using other chinaware or metal utensils to scrape dishes.
- Lack of protective matting on floor of dishwashing area.
- High water pressure in dishwashing machine.
- No rubber guards on disposal unit or dishwashing machine.
- Hand-washing operation.

To Prevent Scratches & Metal Marking, Avoid:

- Using metal trays, metal bus boxes or unsuitable racks.
- Overloading bus boxes & dish racks.
- Scouring with metal pad, steel wool or abrasive cleansers.
- Using other chinaware or metal utensils to scrape dishes.
- Stacking hot, wet chinaware.
- Galvanised sheet metal on scraping tables.
- Not regularly cleaning stainless steel dish tables.

To Prevent Excessive Glaze Wear, Avoid:

- Scouring with abrasive pads or cleansers.
- Using other china or metal utensils to scrape dishes.

To Prevent Stains or Discolouration, Avoid:

- Scouring with abrasive pads.
- Not washing used chinaware for a prolonged period.
- Pre-soaking chinaware in water over 160°C.
- Using wrong detergent concentrations.
- Hard water with strong iron content.
- Using old washing equipment with lime build-up.
- Clogged or eroded spray nozzles.
- Overworking chinaware.

Care & Handling

To Prevent Unnecessary Damage or Loss when Stacking:

- Consider the size and type of your storage space.
- Never stack items that were not designed for stacking.

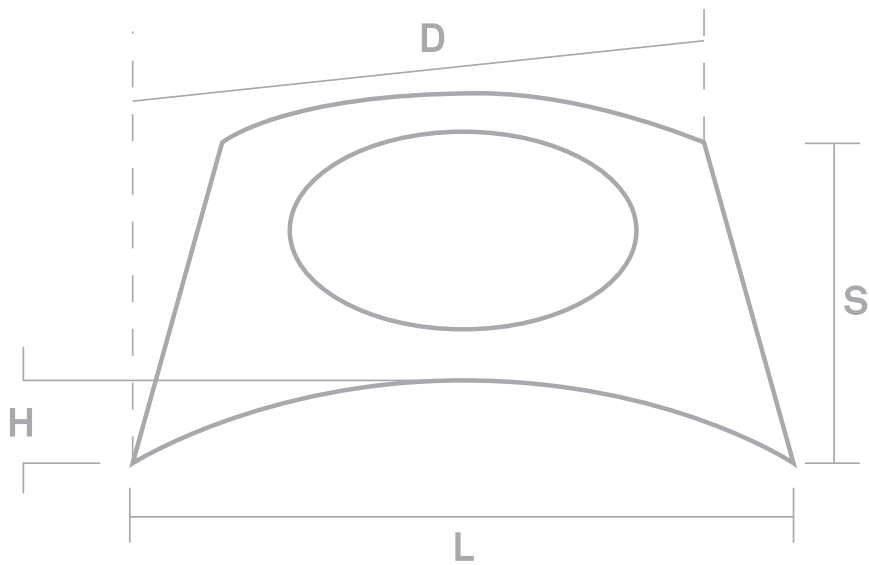

To Prevent Unnecessary Damage or Loss when Managing Inventory:

- Plan for adequate storage facilities.
- Implement a chinaware inventory management & handling system.
- Implement a monitoring system for damaged, discarded or lost chinaware.

To Prevent Unnecessary Damage or Loss when Cleaning Luzerne New Bone:

- Use fine AL204 (Aluminium Oxide) to remove stubborn dirt.
- Wipe with clean cloth dipped in vinegar.
